

## Conjunction --- ( and )

The conjunction 'and' is used to join words, phrases or sentences together. We also called it a joining word.

Examples :

- a) Sam and Tony are friends.
- b) Mother buys two apples and six oranges.
- c) I like to drink both tea and coffee.
- d) The pupils stand up and welcome their teacher.
- e) The boy can see a dog , a cat , a cow and a bird.

**Notice!** In part (e) above, the word 'and' joins more than two words.

👉 When there are more than two words, phrases or sentences to be joined, we use commas ( , ) to link the first words, phrases or sentences. The word 'and' is then placed between the two last words, phrases or sentences to be joined.

Example : Ron draws a flower ~~and~~ a car ~~and~~ a ball and a kite.

Ron draws a flower , a car , a ball and a kite.
